## TECHNICAL SKILLS

**Data & Analysis:** Python (pandas, NumPy, Matplotlib, Seaborn), SQL (MySQL), NoSQL (MongoDB)

**BI & Reporting:** Power BI (basics — daily KPI monitoring, cross-store comparisons), Excel (basics)

**Cloud & Certifications:** Microsoft Azure Fundamentals (AZ-900), AWS Cloud Practitioner (CLF-C02)

**Dev & Tools:** HTML, CSS, JavaScript, TailwindCSS, Next.js, Node.js · Docker (basics) · Git · DSA

**Languages:** Thai (native), French (native), English (C1)

## EDUCATION

**Bachelor's Degree in Computer Science (3 years)** — Epitech  
Montpellier, France

2025 – 2028

- ▶ Year 1: Software Engineering, Cybersecurity, Data Science, Cloud Technologies, Artificial Intelligence, Machine Learning, Deep Learning, Data Structures & Algorithms.
- ▶ Upcoming focus: Data Science & AI, Cloud Architecture, Web3.

## EXPERIENCE

**Volunteer Data Scientist** — PINKCC Challenge — ICM Montpellier  
Montpellier, France

Jan 2026 – Present

- ▶ Working alongside oncology researchers at the Institut du Cancer de Montpellier on an AI & radiology challenge.
- ▶ Performing data cleaning, exploratory analysis, and building ML classification models using Python (pandas, NumPy, scikit-learn, Seaborn).
- ▶ Communicating model performance through visual reports tailored to a non-technical research audience.

**Sales Advisor — Bathroom Department** — Castorama  
Lattes, France

Sep 2025 – Present

- ▶ Supported customers in designing complete bathroom renovation projects, from technical specifications to final product selection; confirmed sales ranging from 100€ to 3 400€.
- ▶ Tracked daily store performance on Power BI: comparing results against other locations, cities, previous year, and across departments (Tiles, Bathroom, Kitchen, Garden, etc.).

**Sales Advisor — Tiles Department** — Castorama  
Nîmes, France

Aug 2024 – Aug 2025

- ▶ Advised customers on tiling projects, balancing aesthetic, technical, and budget requirements; secured sales from 300€ to 8 000€.

## PROJECTS

**TARDIS — Train Delay Analysis & Modeling (Upcoming — Epitech project)** (Python · pandas · NumPy · scikit-learn · XGBoost · Streamlit · Seaborn)

- ▶ Will analyse historical SNCF delay data: full EDA pipeline (cleaning, feature engineering, visualisations) to identify delay patterns by route, time, and season.
- ▶ Will build and evaluate predictive models (XGBoost) for delay forecasting; deploy an interactive Streamlit dashboard for result exploration.

**Sales Analysis Dashboard (Upcoming — Personal project)** (Python · pandas · NumPy · Joblib · Seaborn · Matplotlib)

- ▶ Upcoming personal project: cleaning and transforming sales transaction data, aggregating by product category using groupby, and producing clear bar-chart visualisations to surface best-selling categories and inform business decisions.

**Personal Portfolio Website (Upcoming — Personal project)** (Next.js · TypeScript · TailwindCSS · shadcn/ui · Docker · GitHub Actions · AWS)

- ▶ Building a personal portfolio to showcase projects, skills, and experience using Next.js and TailwindCSS.
- ▶ Learning to deploy on AWS and implement a basic CI/CD pipeline with GitHub Actions and Docker as part of a self-taught DevOps practice.
